
Dear Mama,
We had an
open house tonight and
Dad came to see
Miss Amos's class.
Kay drew this animal
and the spider web and
Dad said spider web good
-Mary Ann -

Hi Nancy,
It's great having you
in my Spanish class
knowing how much we
both hate it!! It was
fun on Sept - 1st
day when your big
sister was my best friend!
Have a good summer
And try to be good!
Luv
Jeanne

Nanc,

I'm glad I've known you for 3 or 4 yrs. It's been fun. You're real nice & sweet. Stay dat way okay?

Luv ya,

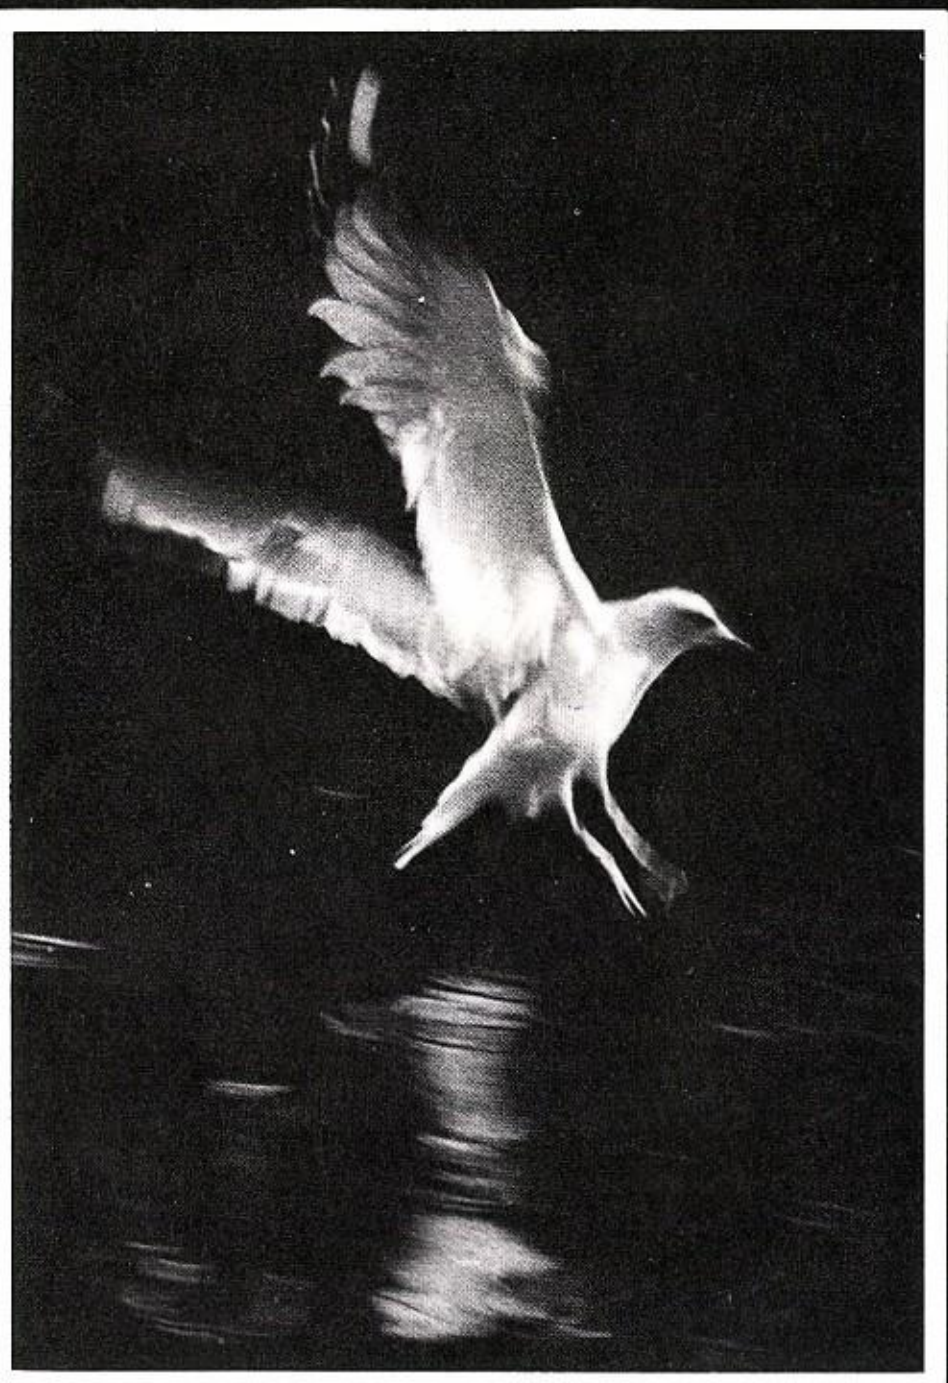
Teri

Nancy

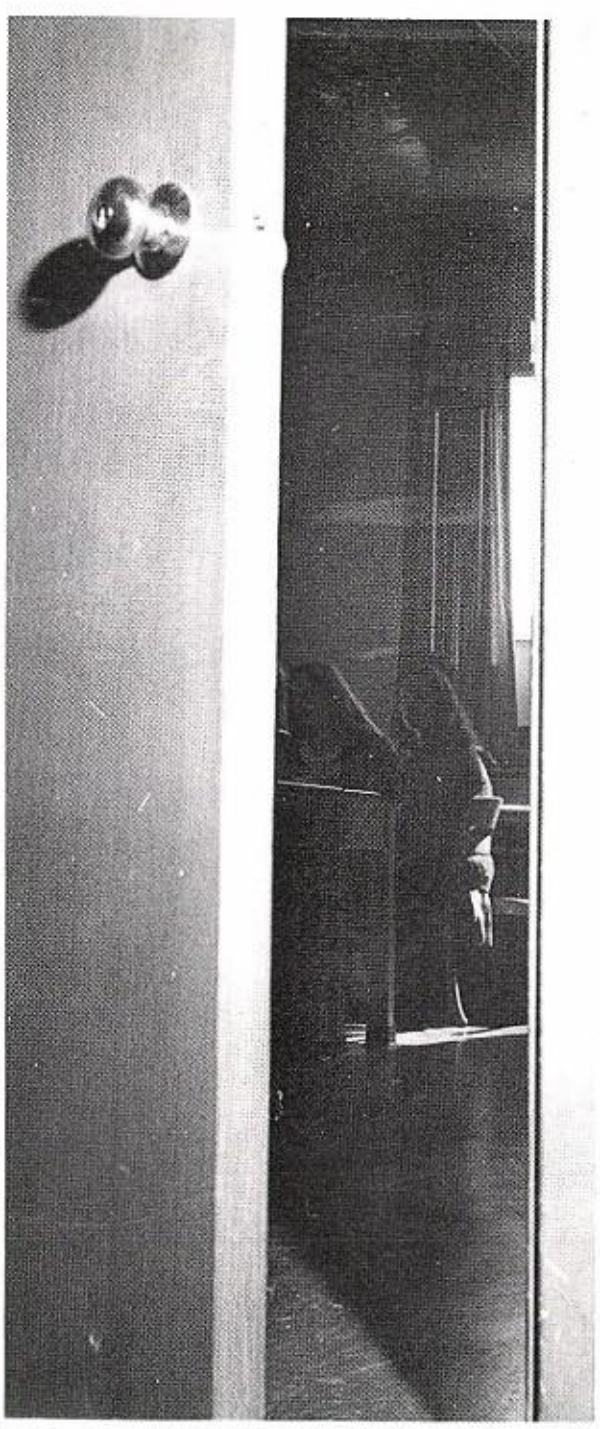
Just think, you're almost finish with your first year. It's been nice knowing you this year and having you in 2 of my classes & hope our friendship will continue on through the year. Have a Happy Summer

Carol

This moment, too,
is part of
eternity

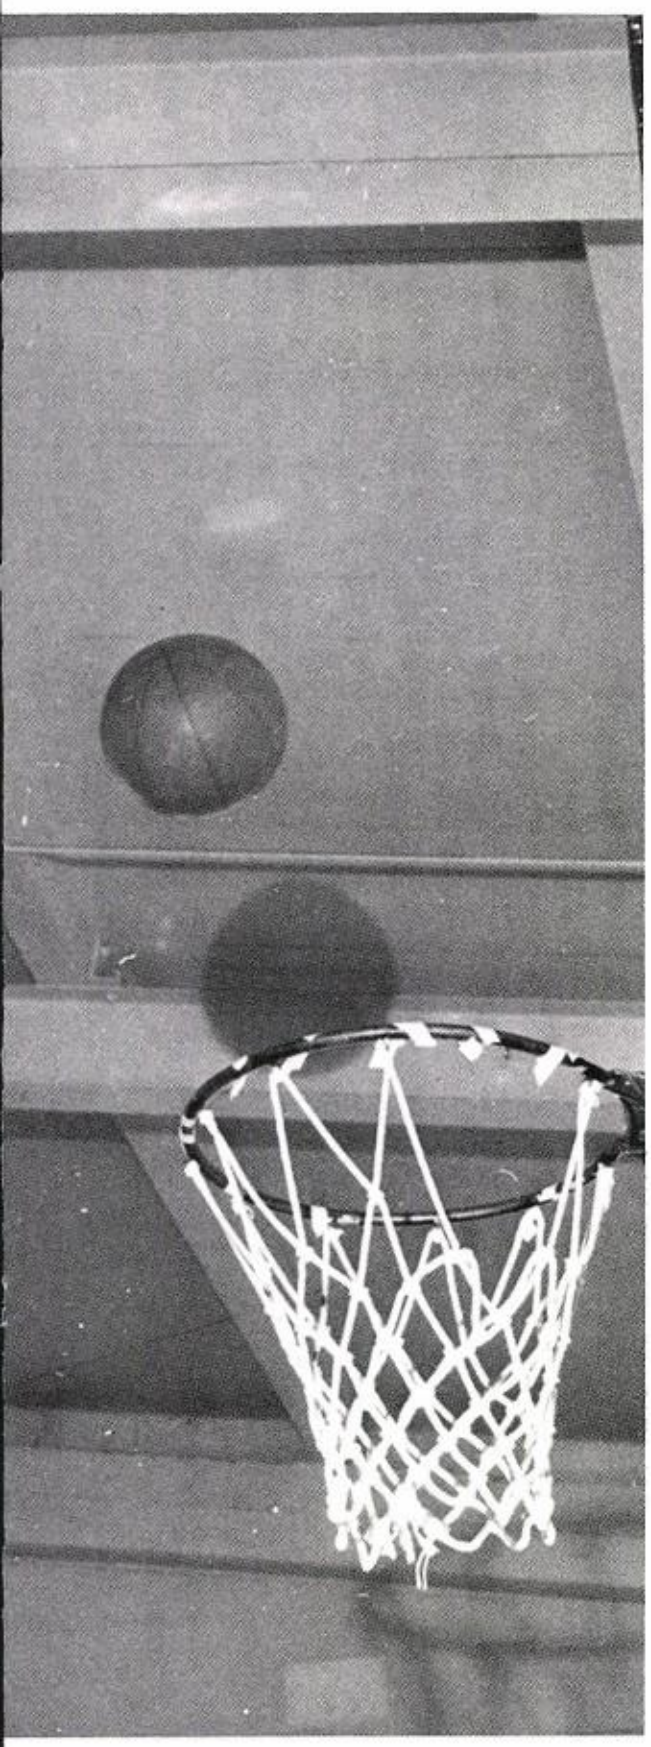


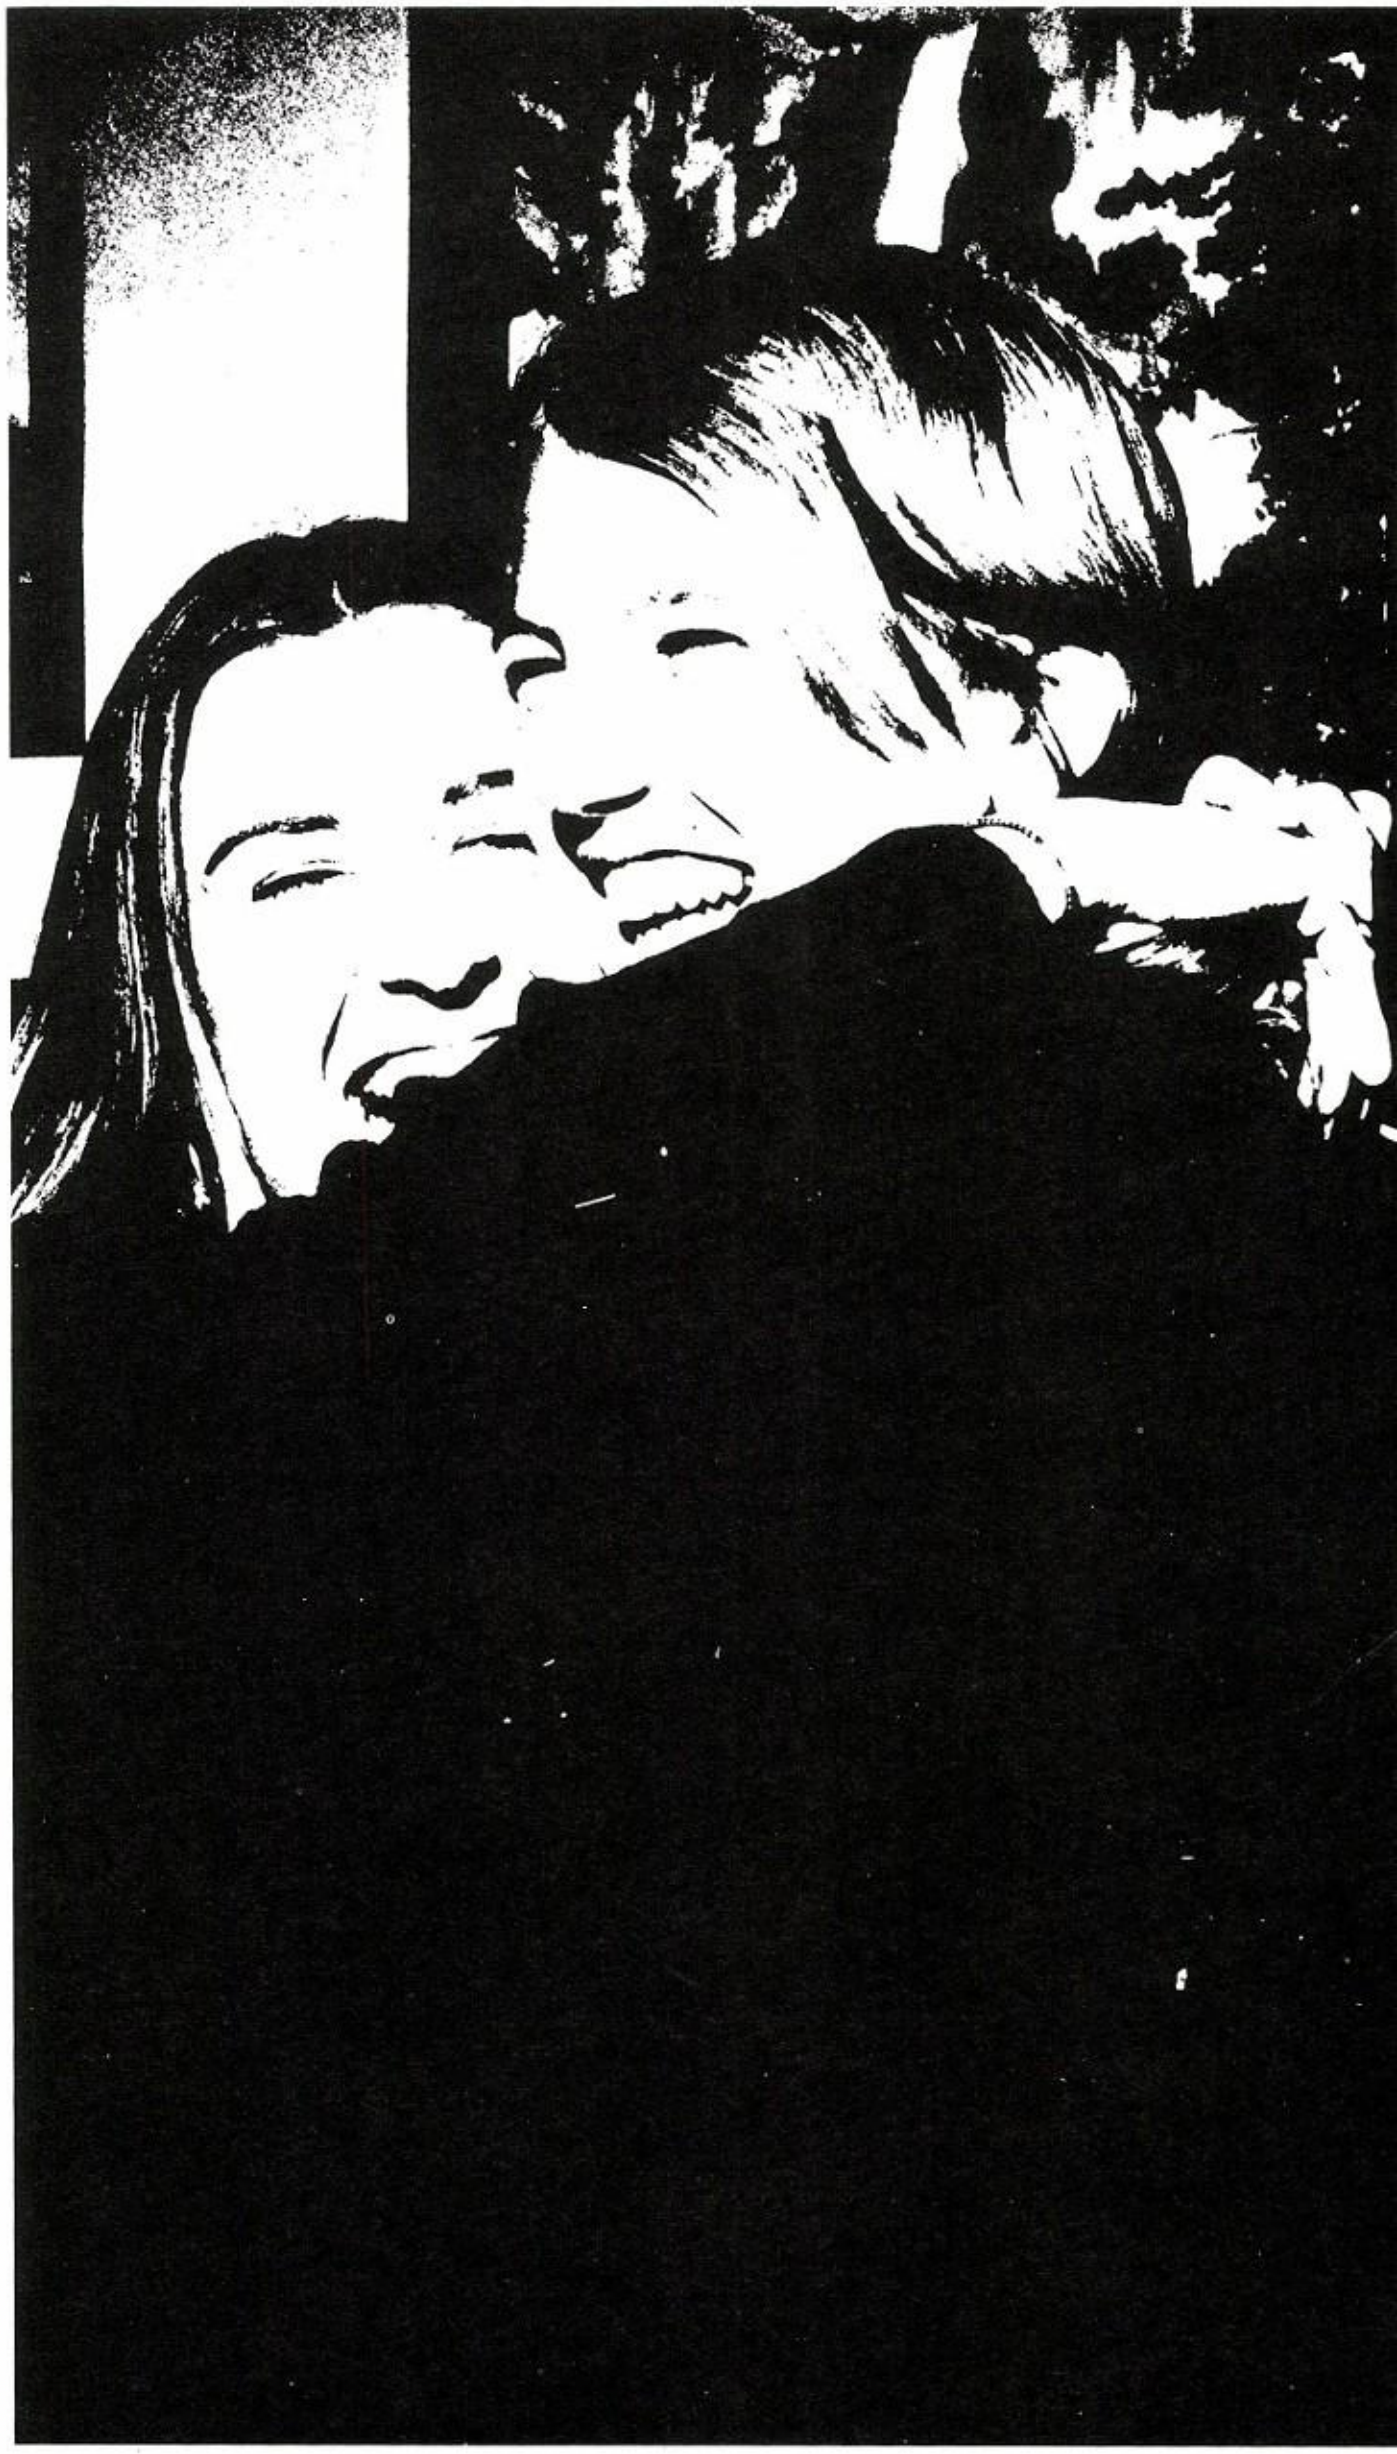
You are a child
of the universe . . .



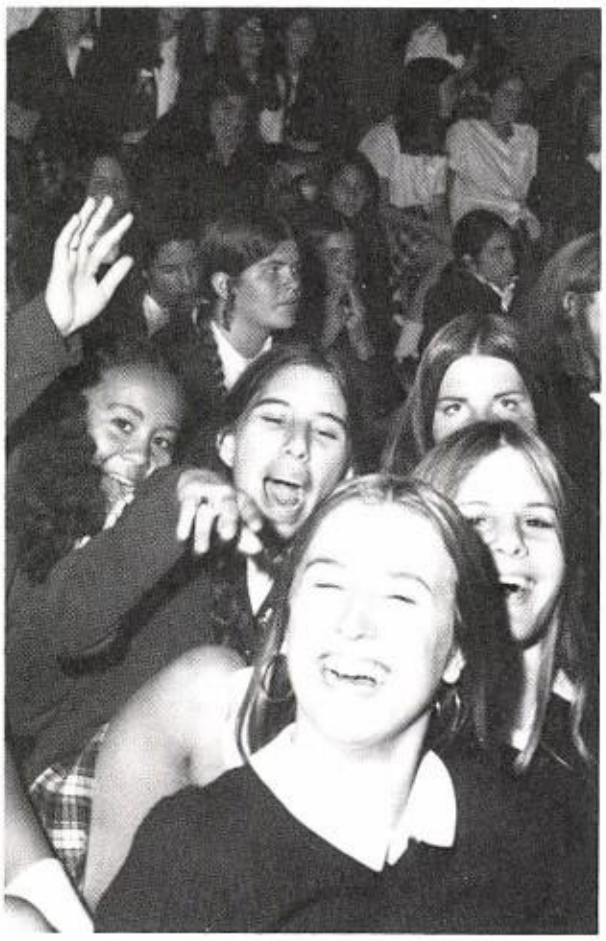
. . . no less than the trees
and the stars, you
have a right to be here
and sing your song
whatever it may be.

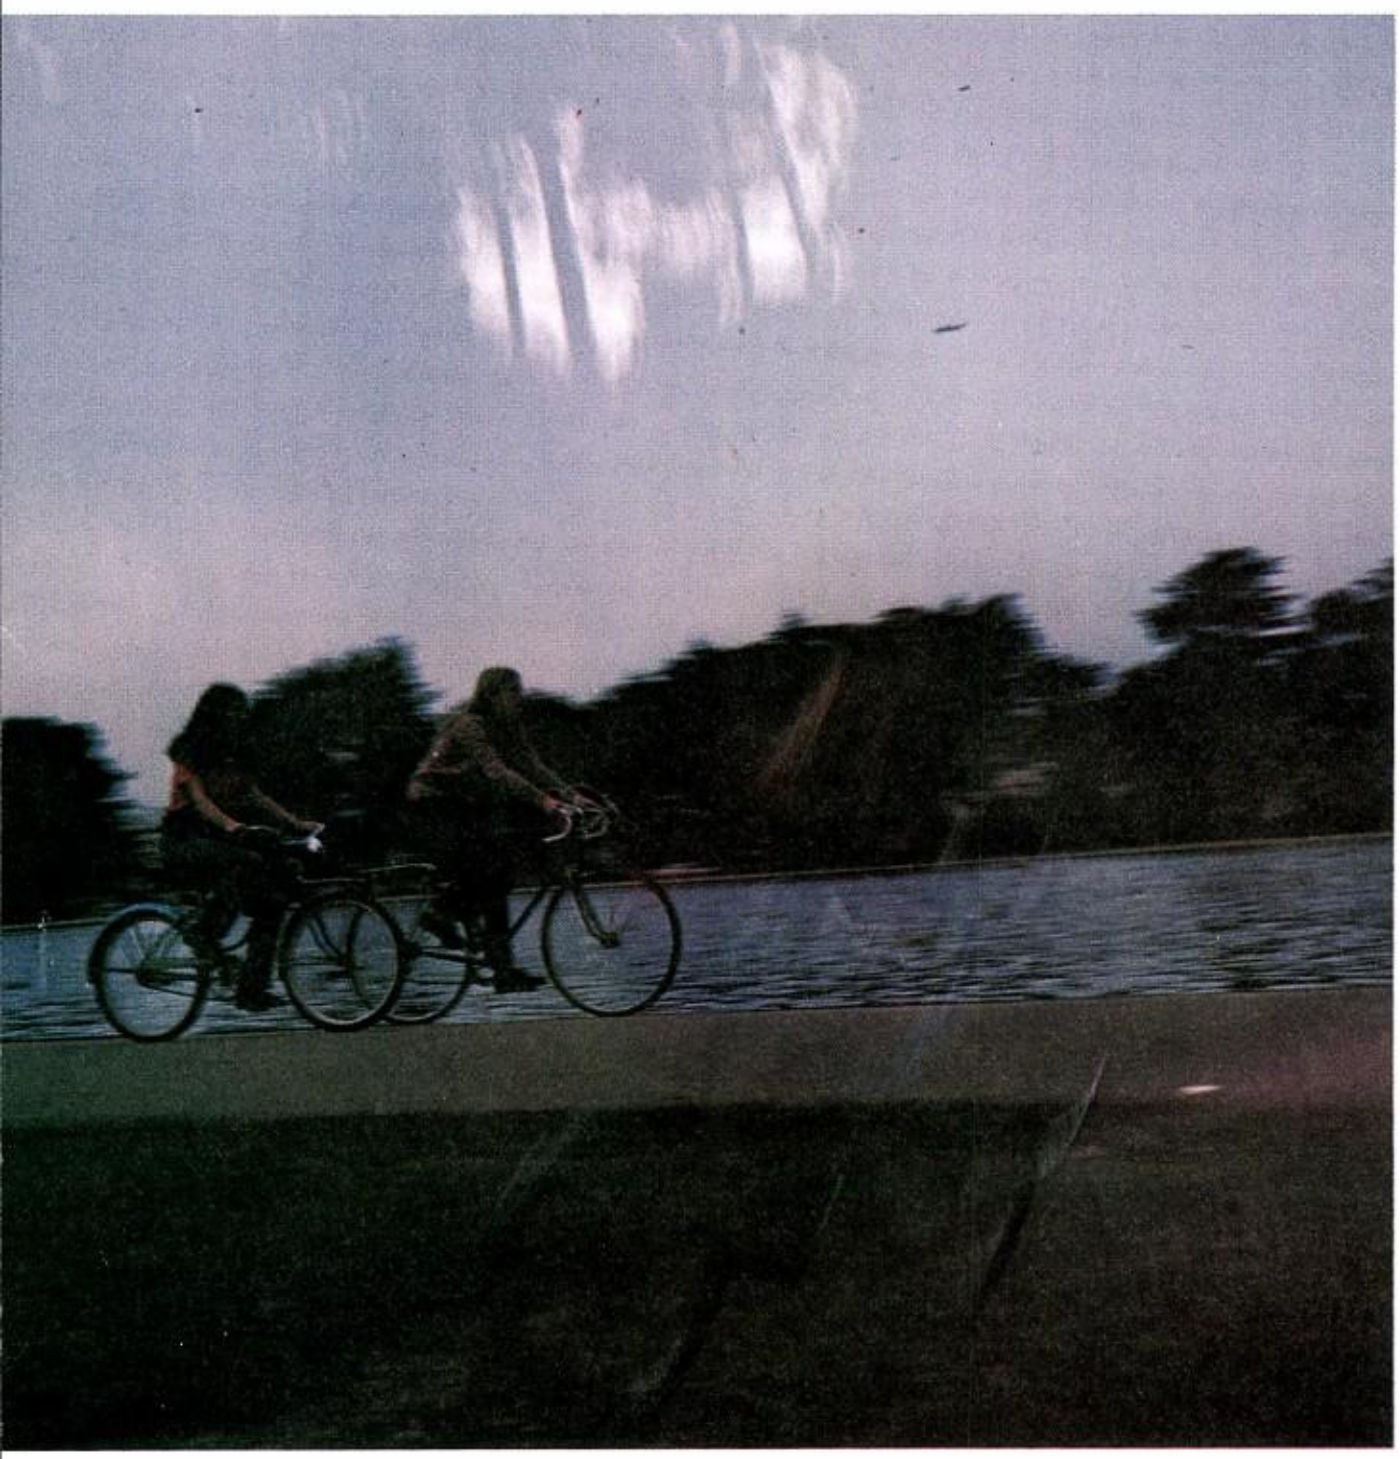
My friend, you are not my friend
but how shall I make you understand?
my path is not your path,
yet together we walk
hand in hand.

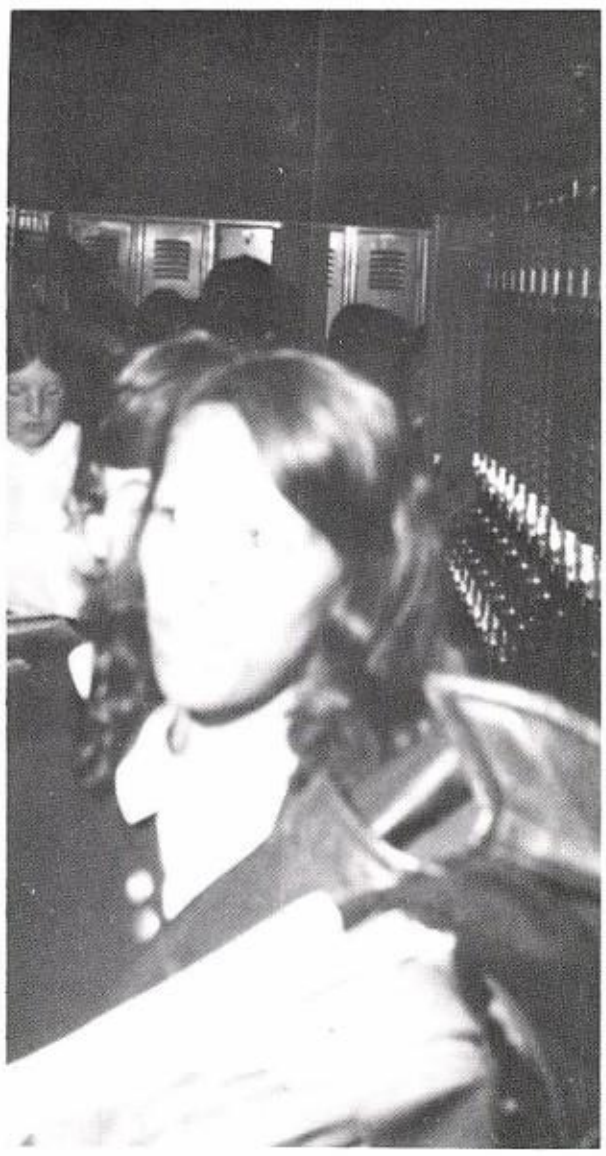


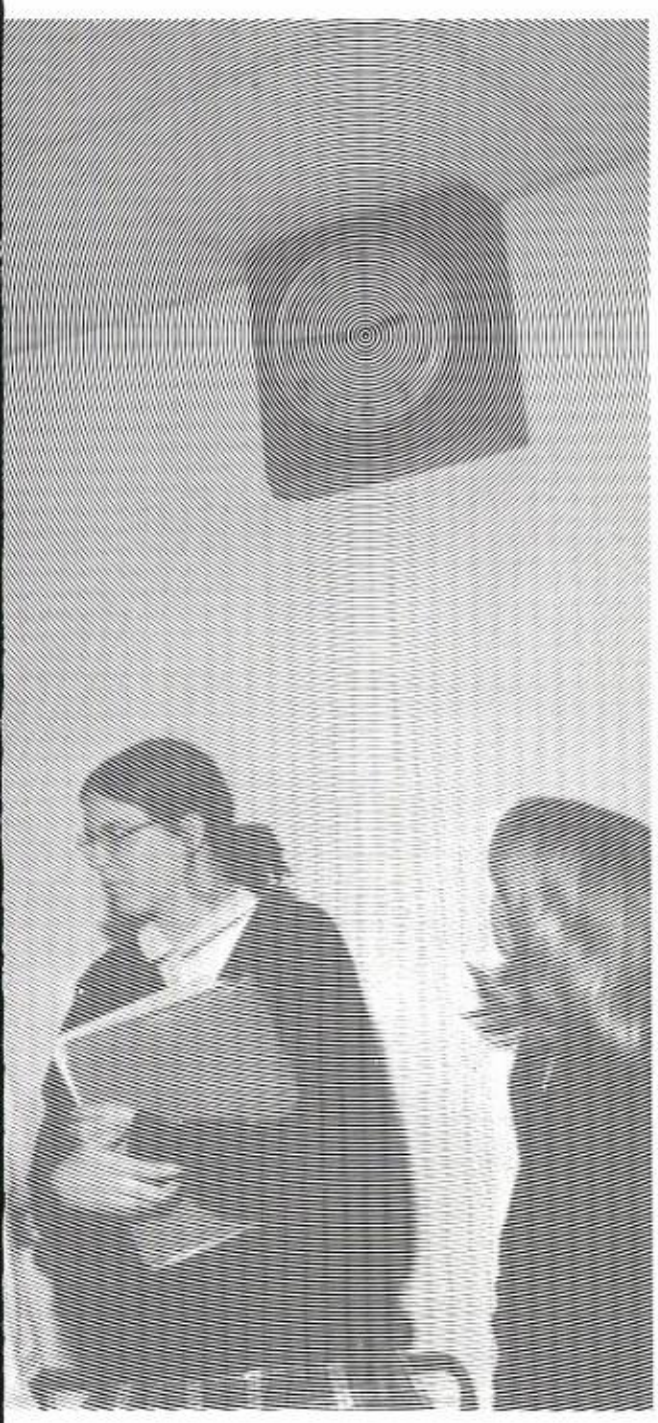


Just a moment, please . . .



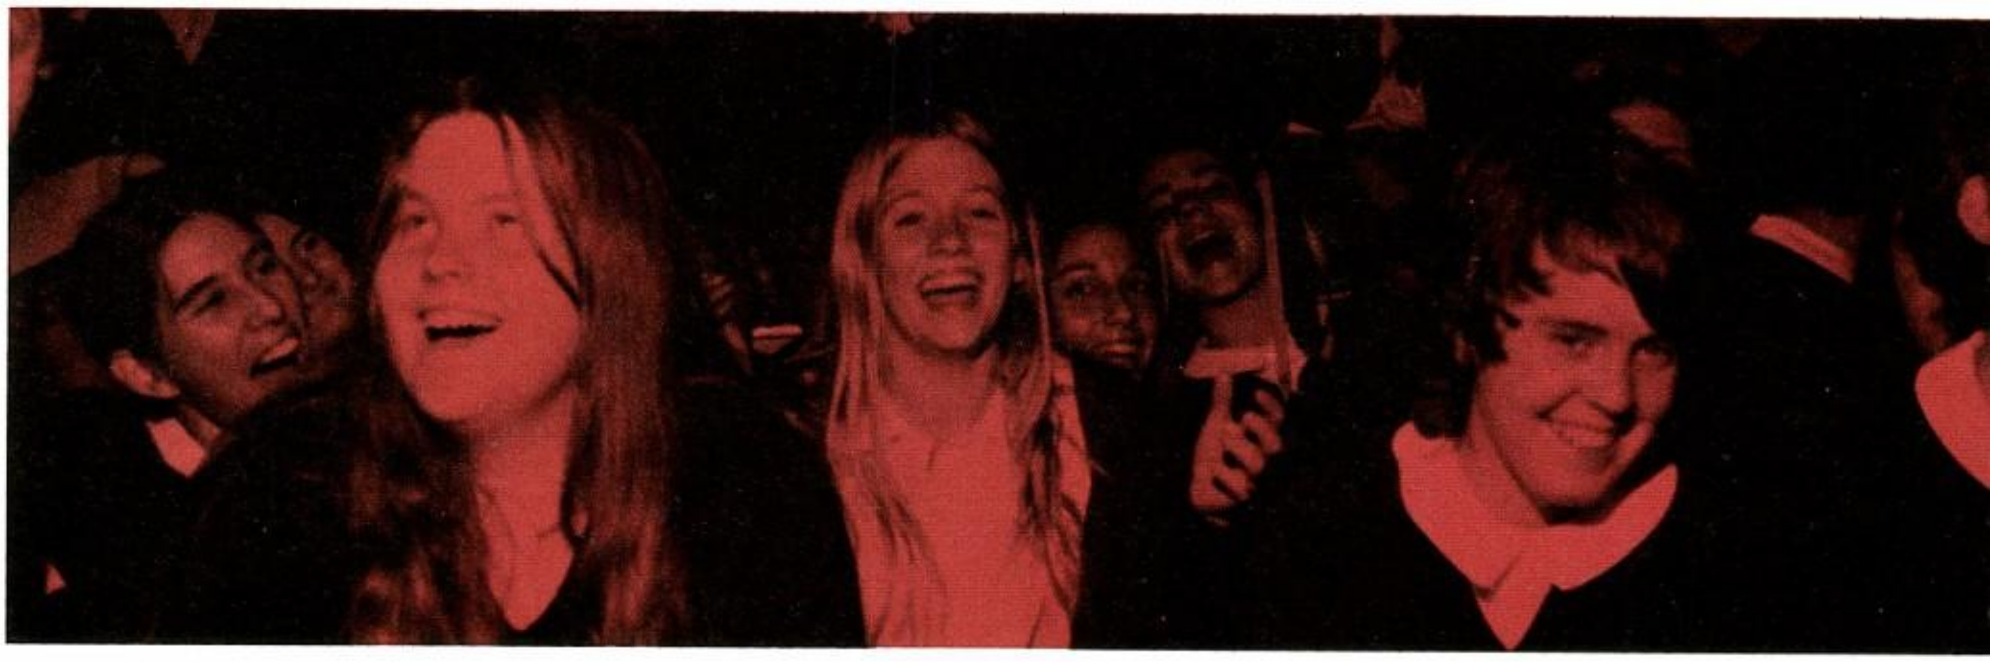






Do you need proof
of God?

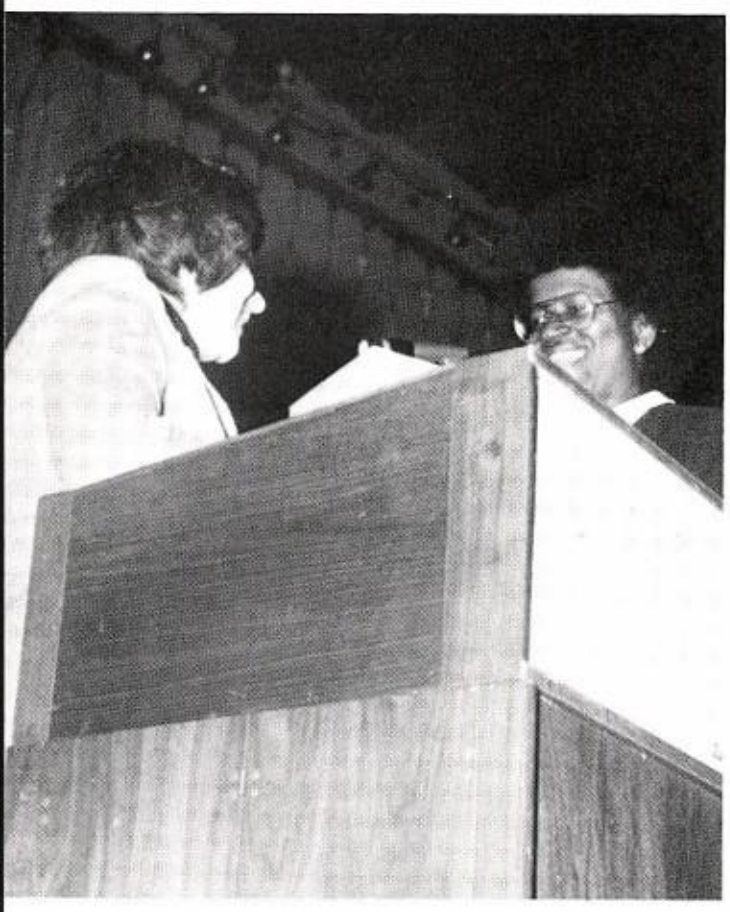
Does one light a
torch to see
the sun?

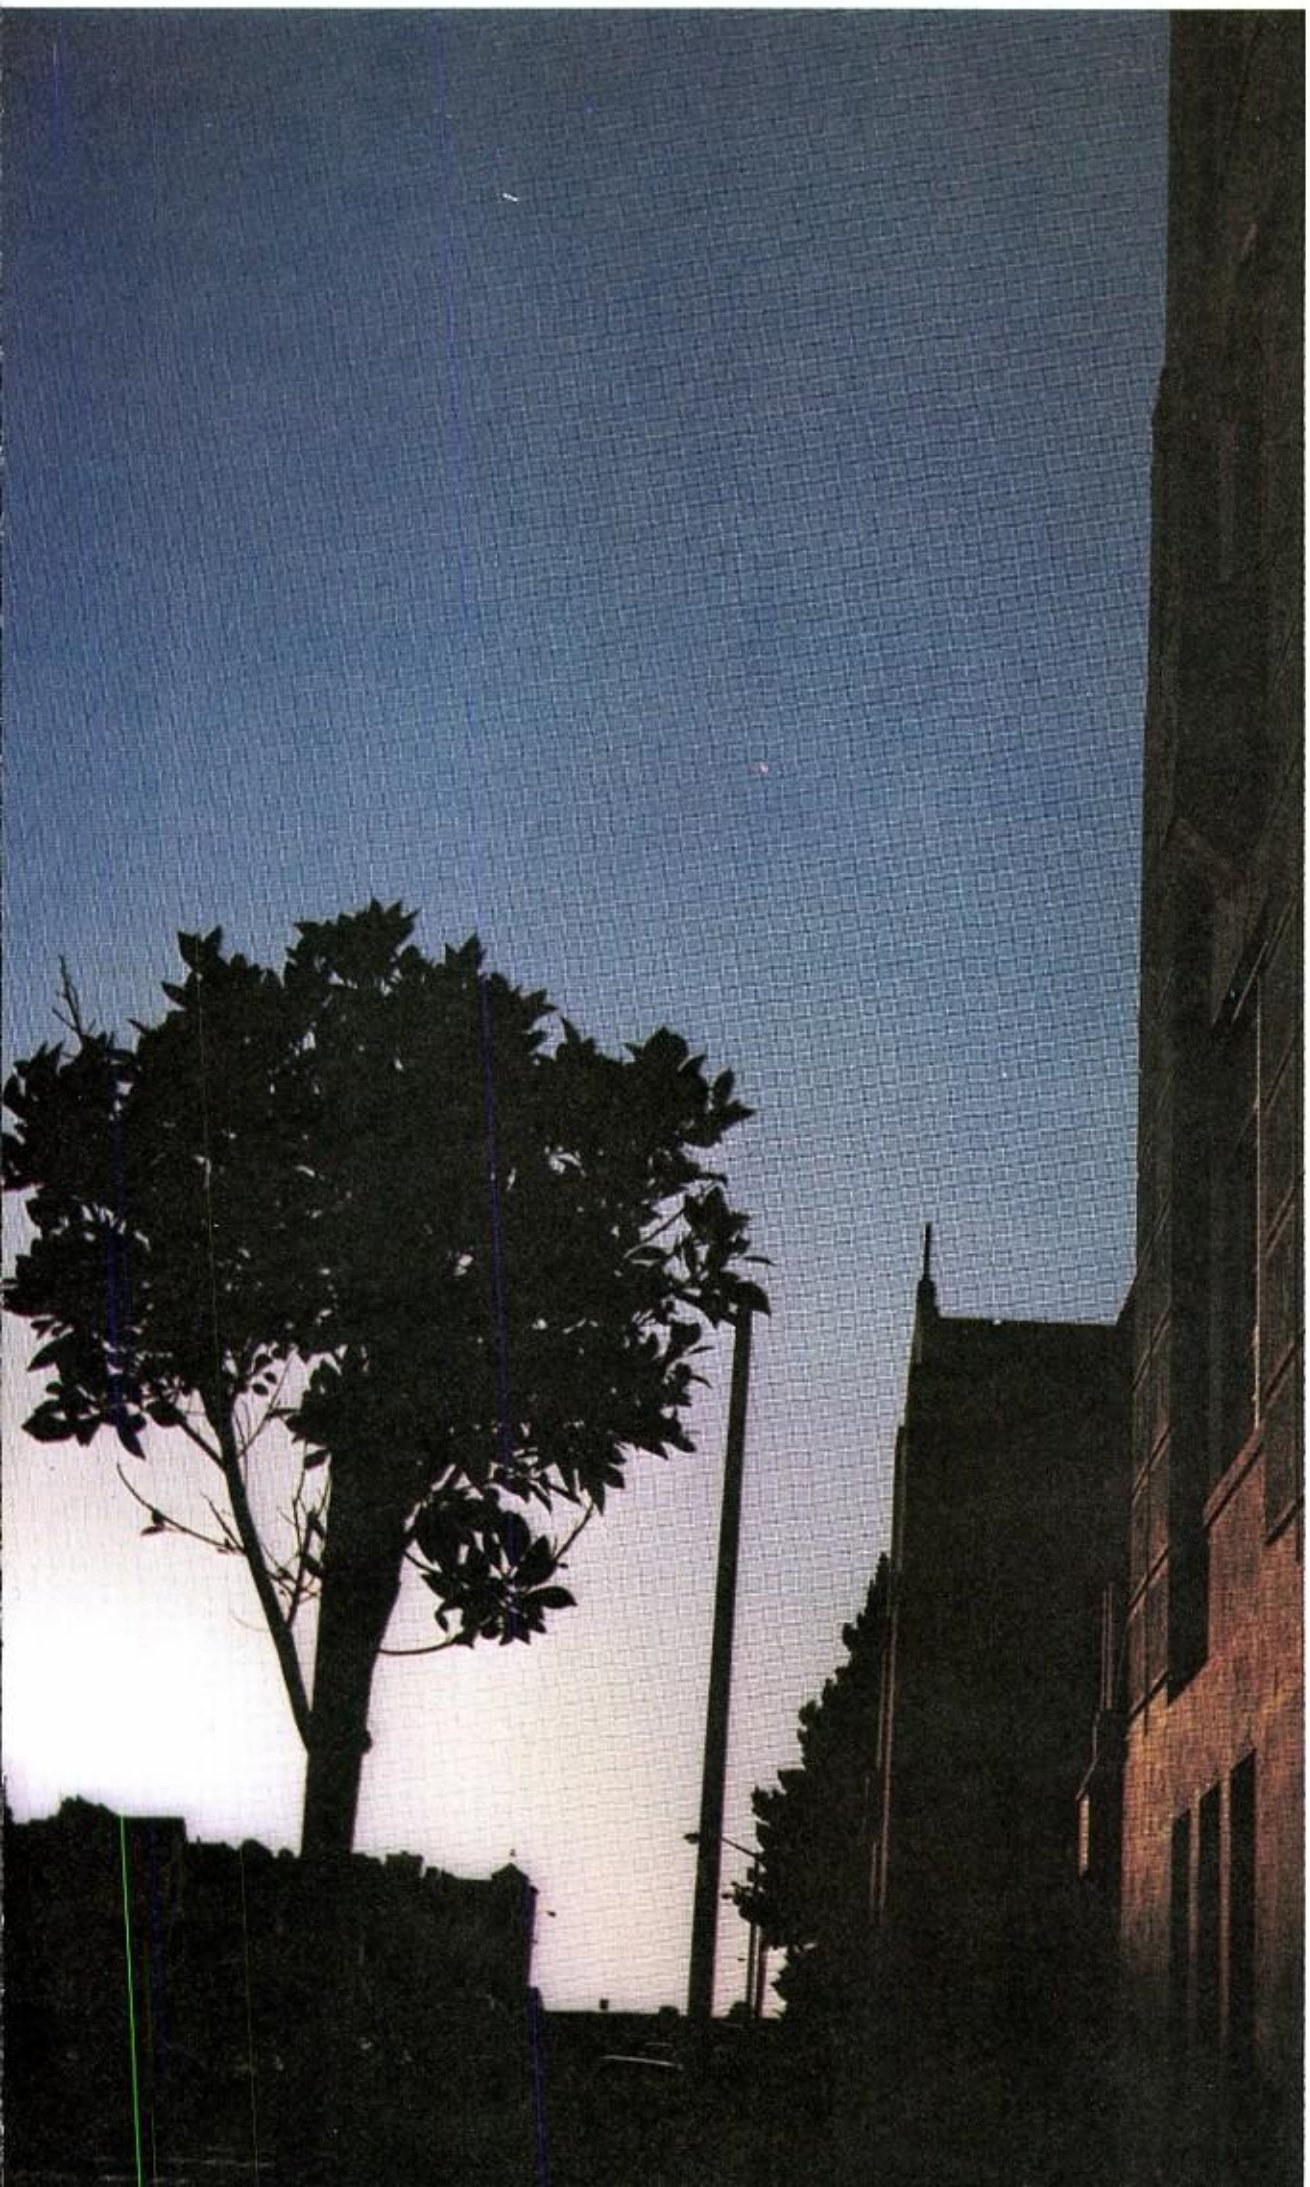


One life . . .

. . . A little gleam
of time
between two
eternities

. . . And thus I venture
to bring myself into
the world . . .





. . . and quietly I await the eternally moving destiny.

Yearbook Staff

Over six hundred people were Presentation High School this year. Many people worked together to give this six hundred a chance to relive 1971-72. As editor, I'd like to express a word of thanks to those "many." Harold Humes, our representative, for his help and assistance; Miss Stangl, for her dedicated work and encouragement; Mrs. Hamlon, for her advice; Tim Dillon, for his aid in photography; and Sister Leonard for her cooperation. A special thanks to my staff, and above all, to the senior class, who have shared in shaping the spirit of Presentation over these four years.

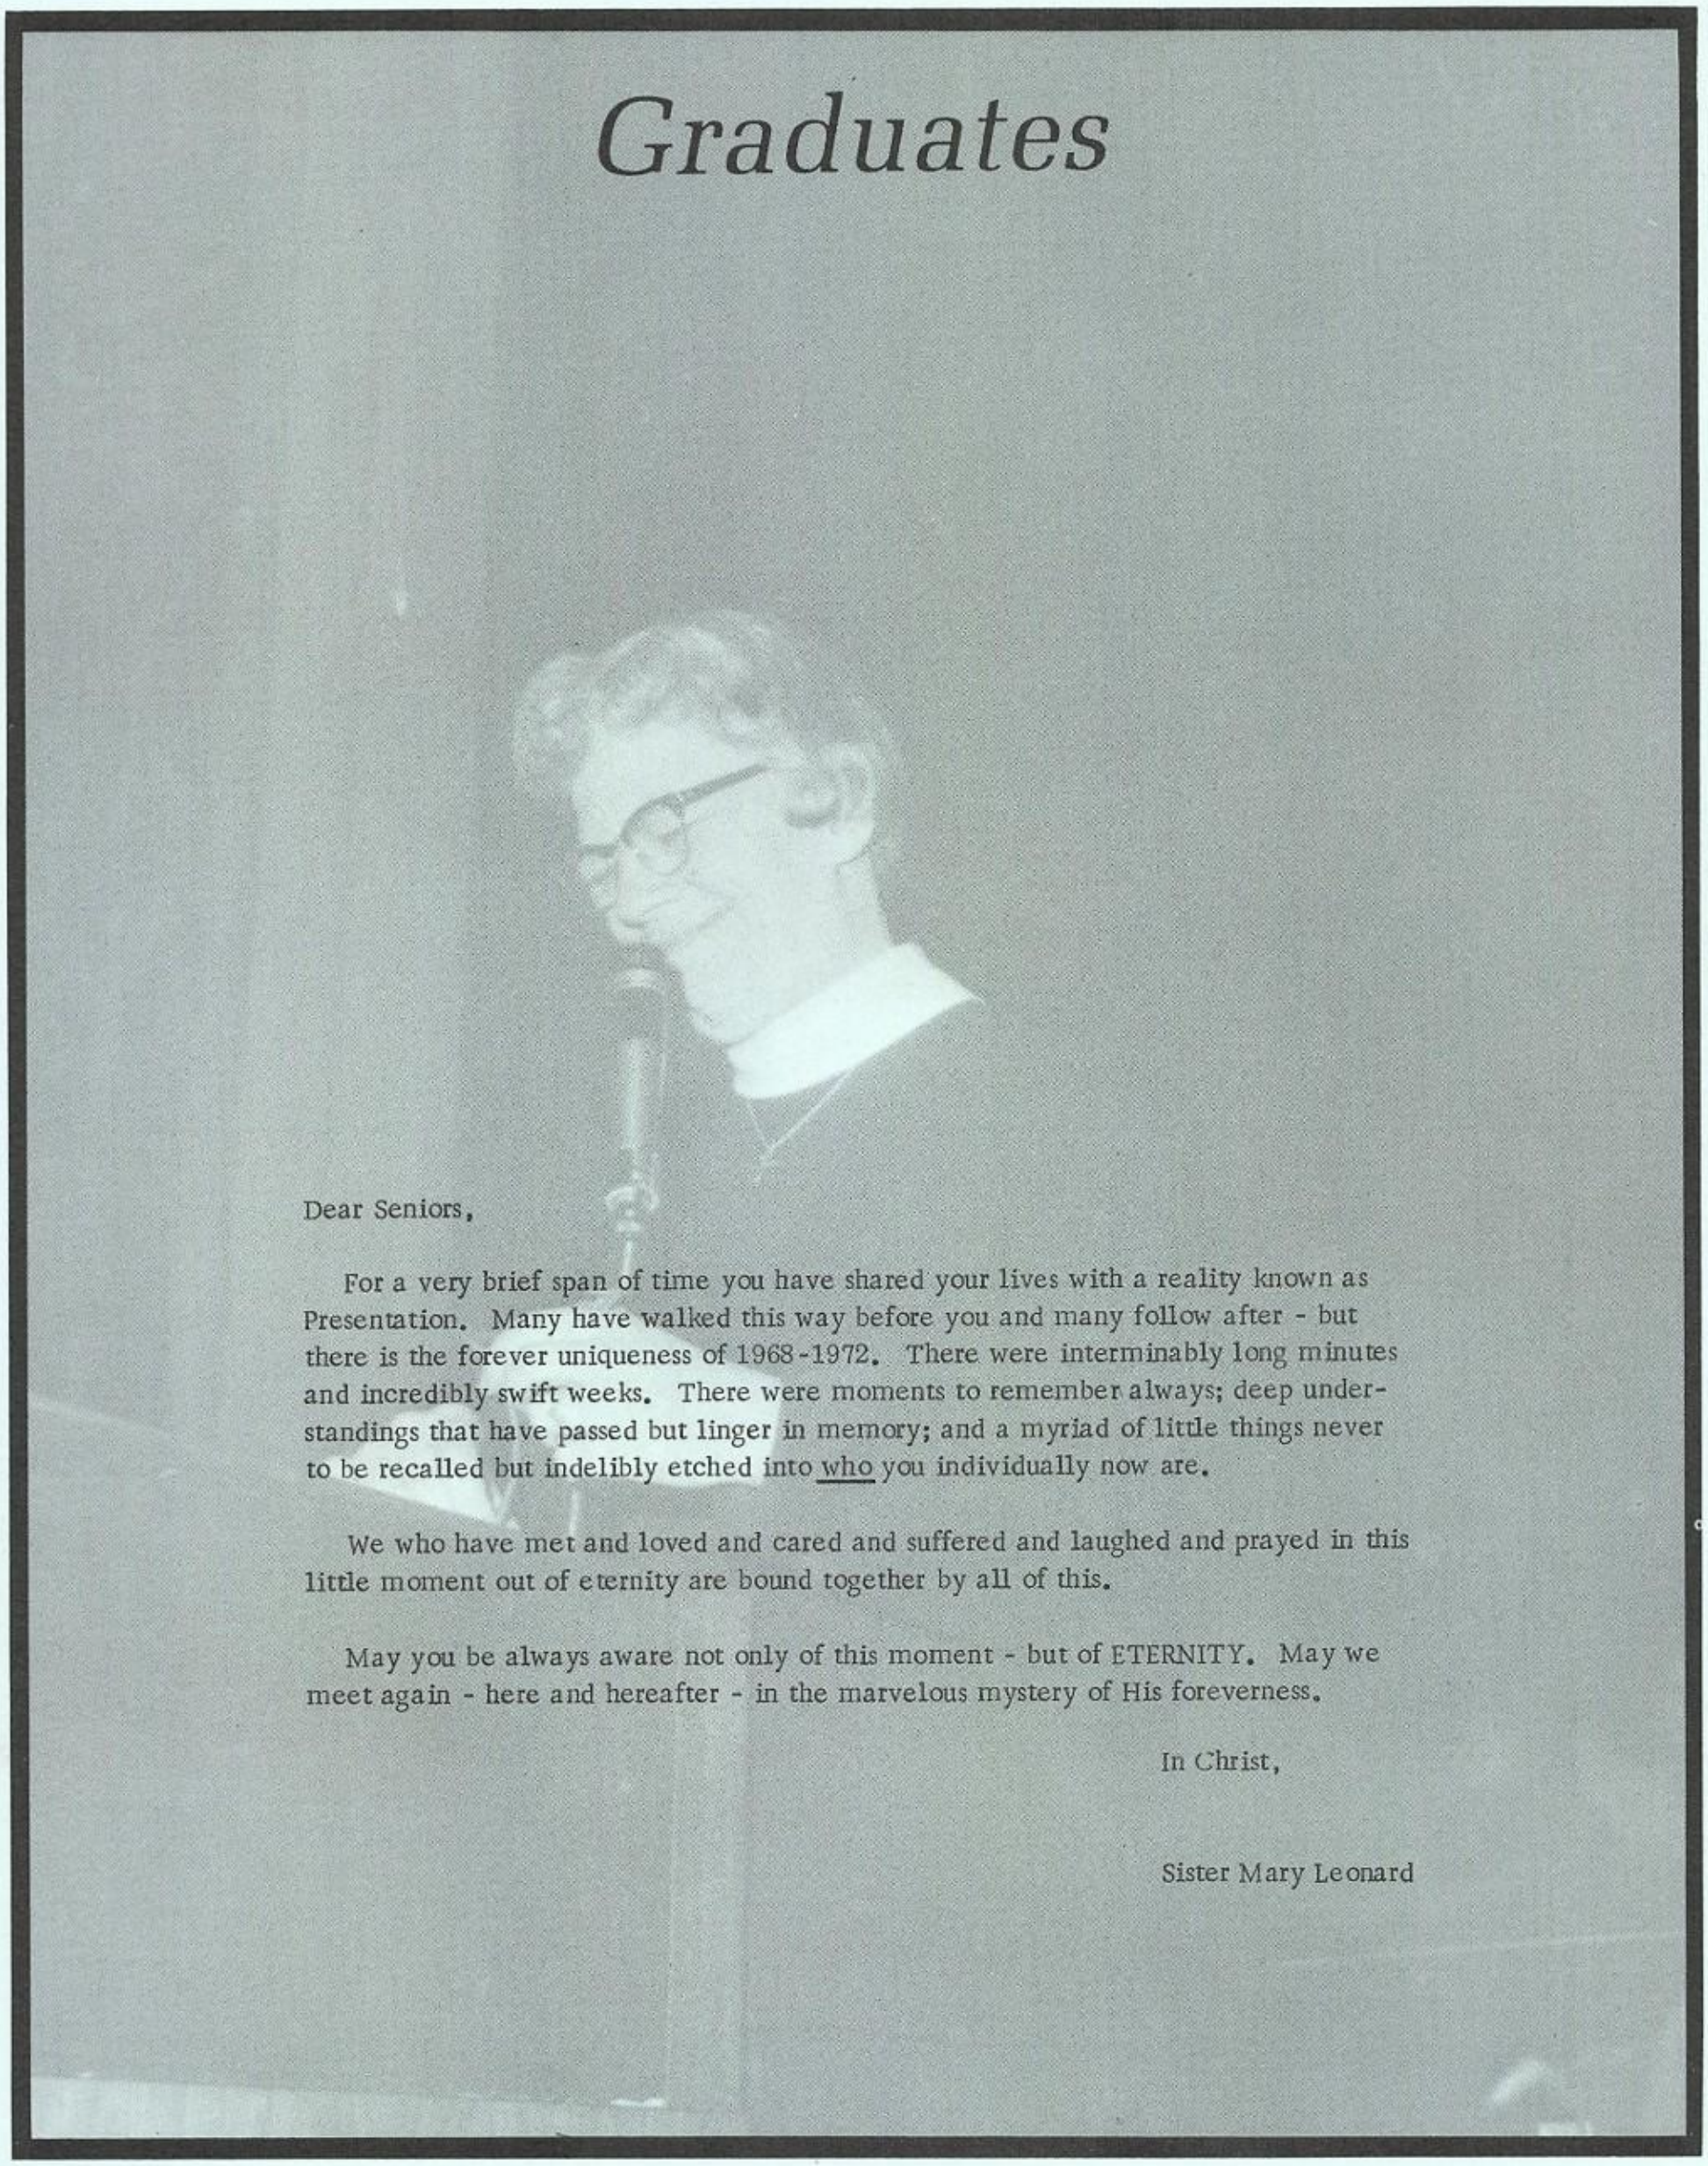
Graduates



Dear Seniors,

For a very brief span of time you have shared your lives with a reality known as Presentation. Many have walked this way before you and many follow after - but there is the forever uniqueness of 1968-1972. There were interminably long minutes and incredibly swift weeks. There were moments to remember always; deep understandings that have passed but linger in memory; and a myriad of little things never to be recalled but indelibly etched into who you individually now are.

We who have met and loved and cared and suffered and laughed and prayed in this little moment out of eternity are bound together by all of this.

May you be always aware not only of this moment - but of ETERNITY. May we meet again - here and hereafter - in the marvelous mystery of His foreverness.

In Christ,

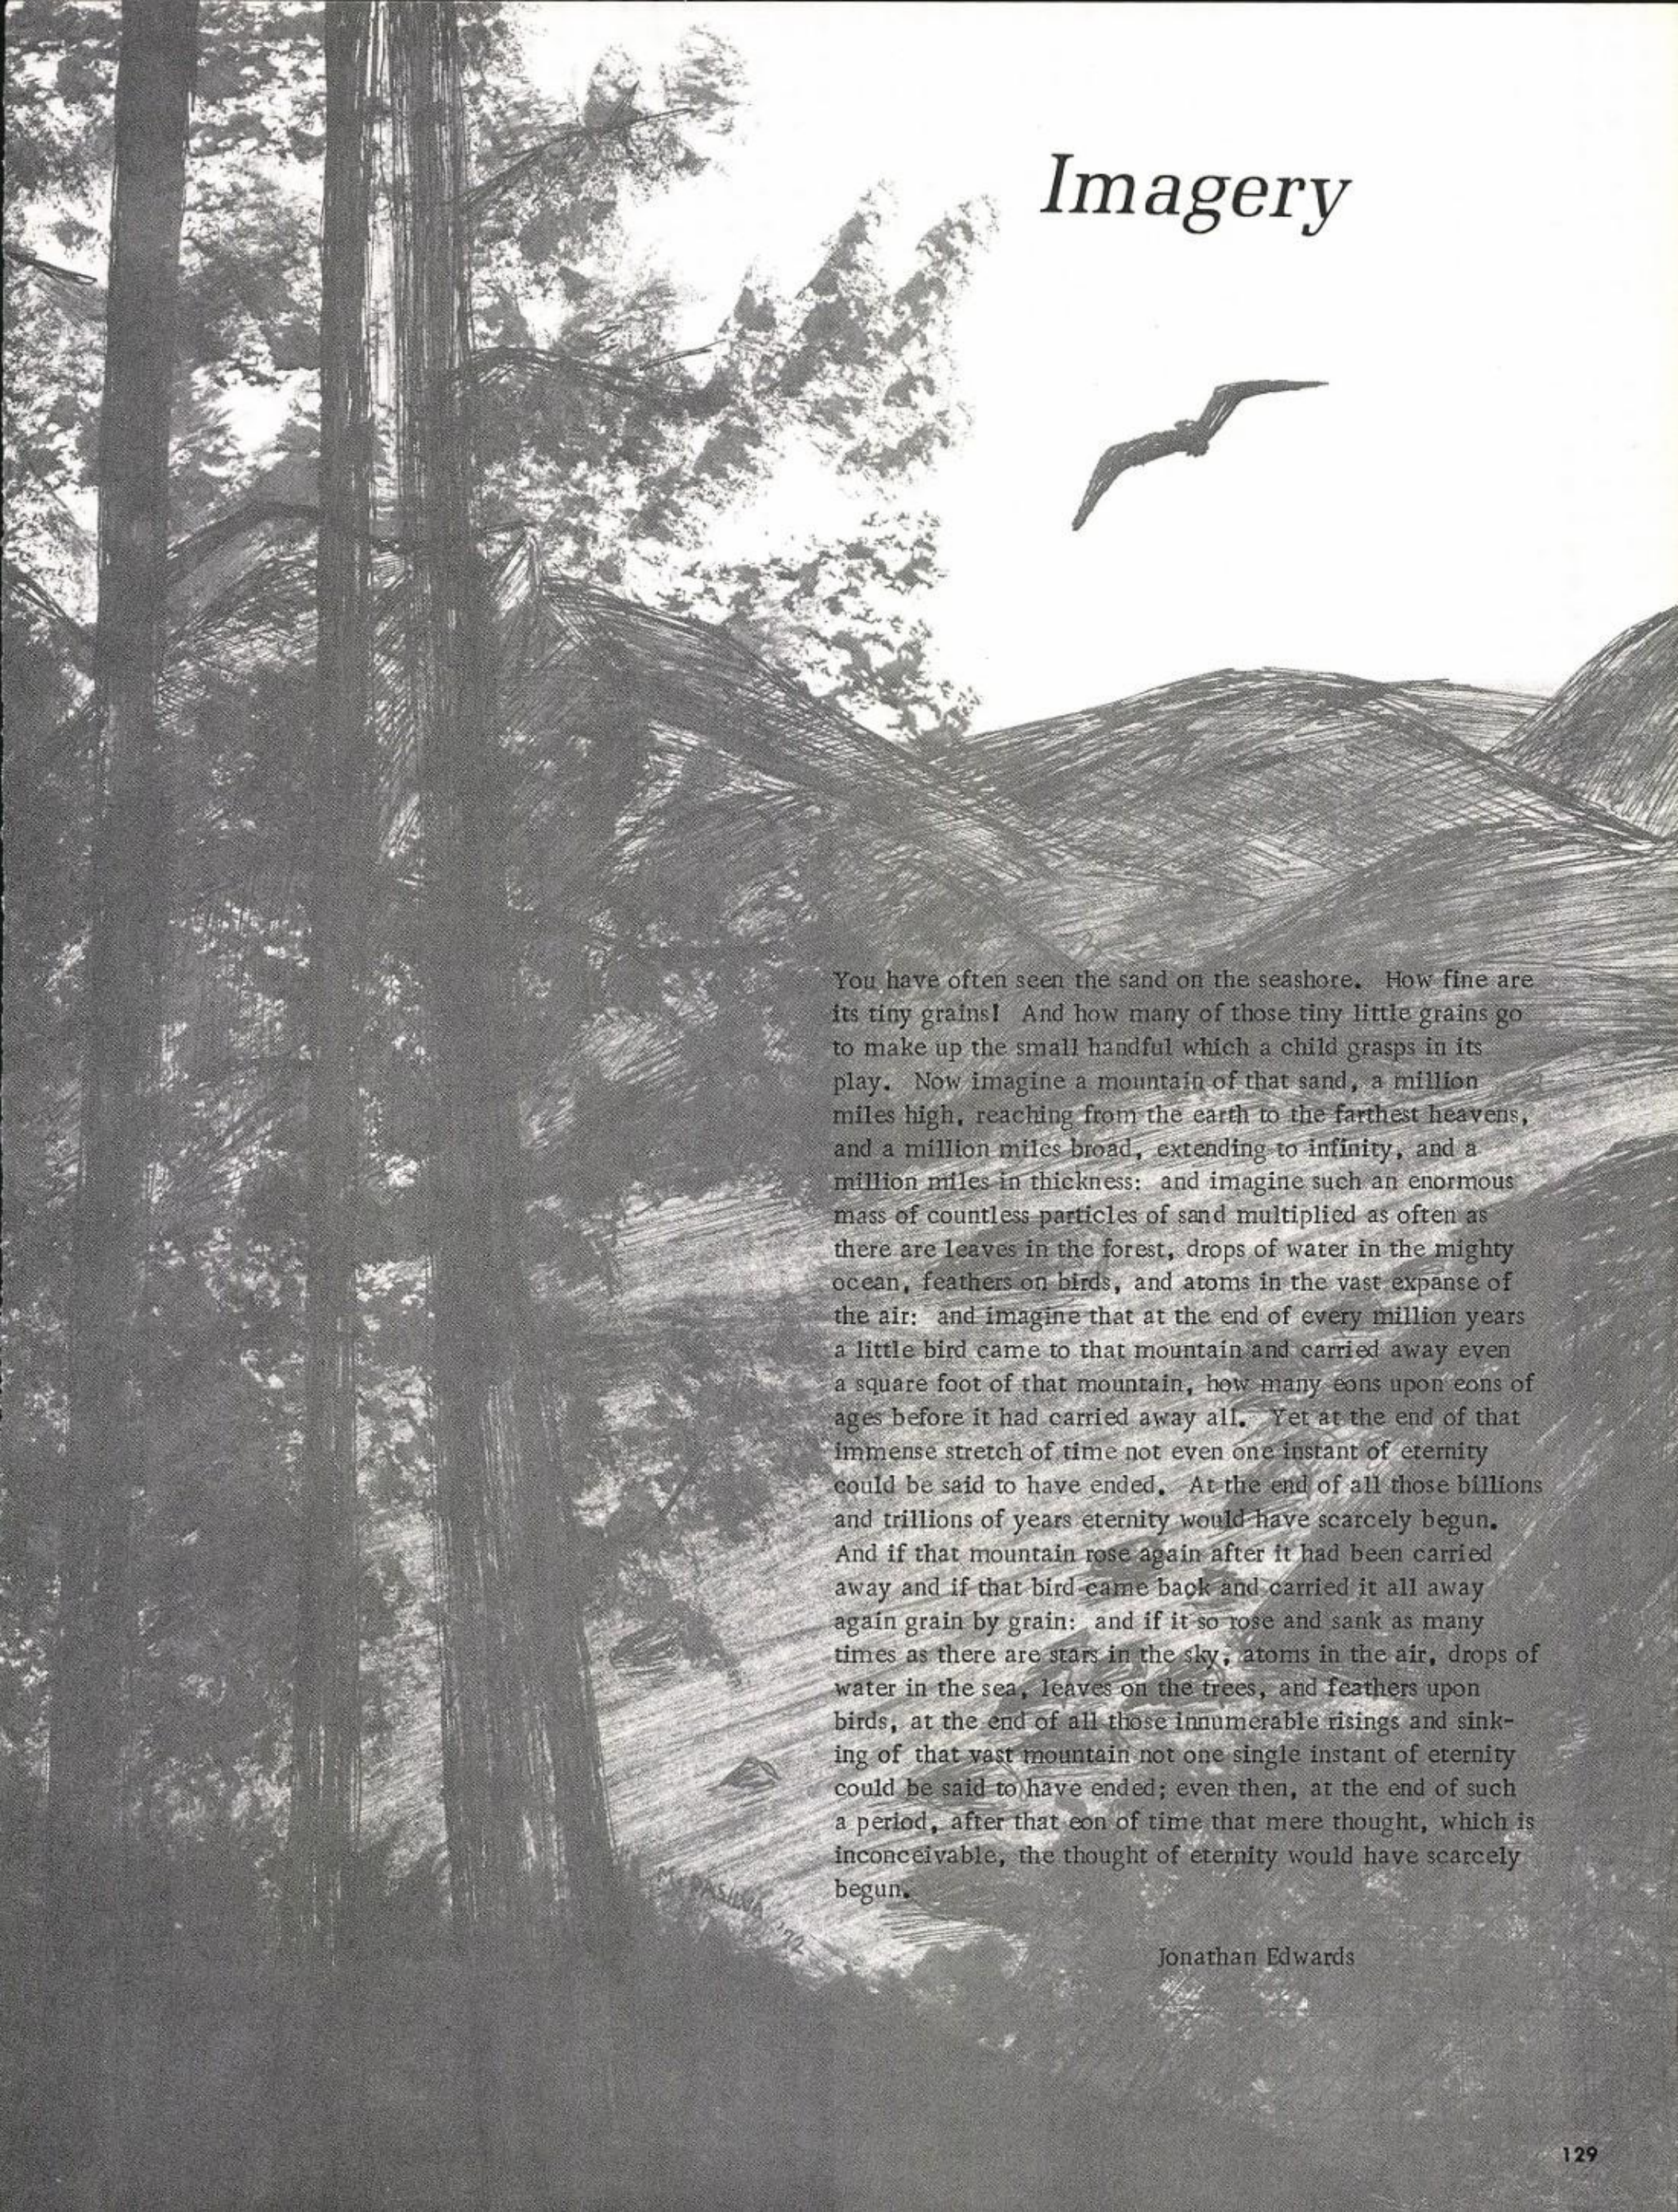
Under the cover
of the stars,
under the cover
of the sun,
fermented into eternity
lies this precious
moment of time
called
Life.

Imagery



You have often seen the sand on the seashore. How fine are its tiny grains! And how many of those tiny little grains go to make up the small handful which a child grasps in its play. Now imagine a mountain of that sand, a million miles high, reaching from the earth to the farthest heavens, and a million miles broad, extending to infinity, and a million miles in thickness: and imagine such an enormous mass of countless particles of sand multiplied as often as there are leaves in the forest, drops of water in the mighty ocean, feathers on birds, and atoms in the vast expanse of the air: and imagine that at the end of every million years a little bird came to that mountain and carried away even a square foot of that mountain, how many eons upon eons of ages before it had carried away all. Yet at the end of that immense stretch of time not even one instant of eternity could be said to have ended. At the end of all those billions and trillions of years eternity would have scarcely begun. And if that mountain rose again after it had been carried away and if that bird came back and carried it all away again grain by grain: and if it so rose and sank as many times as there are stars in the sky, atoms in the air, drops of water in the sea, leaves on the trees, and feathers upon birds, at the end of all those innumerable risings and sinking of that vast mountain not one single instant of eternity could be said to have ended; even then, at the end of such a period, after that eon of time that mere thought, which is inconceivable, the thought of eternity would have scarcely begun.

Colors

What is the difference between the
colors
black and white?
One is darker and the other light,
But they are both colors,
right?
What is the difference between the
races
black and right?
One has darker skin and the other light.
But they are both people,
right?
So why aren't they treated alike?

At last the time has come
when a person sees herself as
being beautiful.
The mystery of friendship can be
found by listening to the sea.
The calmness of the water stand for
love and the beauty of a relationship
As you sit there, you feel the soft
touch of a friend by you -
listening with you.

Life is too masterful to be compared by
a leaf of a tree,
A leaf has its purpose - to sprout,
to grow and to die;
but it shows beauty.
Life is something special, we are born
to live, then die;
but we can do a lot of things -
like love.
Leaves are different -
different shapes, sizes, and colors.
Life is the light of humans,
there are also different shapes, sizes,
and colors.
Life is full of beauty,
by the things we do.
Leaves are full of beauty,
by growing and giving color;
Leaves grow all over -
they can never do wrong.
People are all over the world
but we have the choice to do right
or wrong.
But everything is beautiful,
A leaf has its main factor -
life has its main factor -
and God gave us all -
The leaves - the sun - the ground - night
and day - the waters - the heavens -
love and life.

Remembrance

Remember when we were young?
We had freedom.

We were never alone.

Remember when we were young?
We always loved everybody.
It didn't matter what color they were or we were
We all loved one another.
Black, white, brown, yellow, or red.

We were always all the same.

Remember when,
We could love anyone we wanted to,
And anyone could love us.

Times have changed now,
But maybe we don't have to change!
Let's stay the same as we used to be.
We can start to love each other again,
And maybe others will follow.

Remember when ...

Evangeline Dominguez '74

In the echoes of my memory,
There lurks the remembrance
of Love; For Love is Blue.
The shadows of the past,
The thoughts of the present,
and the dreams of the future.
Here I stand; thinking, admiring,
Studying, weeping, and rejoicing
in what I've done and will do.
The people I have hurt,
Those I have made happy,
The good memories and the bad,
The beautiful people and the ugly,
Those that I've loved
And those that I've hated
All of these
Are in the
Memories
Of my mind.

Woman is beautiful.
Woman is a gentle, kind, and loving
creature.
She is one who is mother and
counsel of the world.
Woman is strong, yet fragile.
She is the one who says yes to
the One who is.
Woman is a giver.

Woman can be vile and vulgar,
A fiery tempest, who has no regard
other than self.
If she wishes she can become
grotesque.
Woman can take and take
and never give.
She, if she wills, can destroy
the world.

I AM

I Am a drop of water in the vast sea.
My peace cannot be heard
above the roar
of the tide of violence
prejudice
apathy and
destruction.
I cannot be seen amid the frothing
blood and clenched fists of the
overpowering waves.
At times I AM lost in the
swirling bitter confusion and
swallowed
by liberally - closed minds
But through the
pounding, grinding
motion of
drug-crazed sea against
established sand
I Am.
Idealistic.
Realistic.
Individualistic.
A single drop of water.

The Only Game in Town

I wonder where pidgeons go when
there's no place to be,
I wonder where dogs sleep to hide
from insecure masters,
And if man has found
his place to hide,
To lie in at night for fear of
being found,
And to cover at day to hide
from his Master.
Foolish man,
Look around and see -
The birds of the air fly wildly
in praise
See where the animals go -
They're all in front of you.
Fear is a useless emptiness
and a waste of time.
People are born to love.
It takes time,
A great deal of patience
And a heart able to take pains
the body can't
But is is the only game in town.

Maria Parma '72

Loneliness

What is loneliness? Unless
you've experienced it,
then you'll never know.
You cry out, no one hears -
no one wants to know -
no one
wants to listen.
You're there
and that's all ...
In the midst of people
no one sees you.
No one
wants to see you.
Loneliness is like a big
black, no ending eternity.
No way out
unless
that someone comes by
and reaches out to you.
That someone who wants you,
needs you, loves you.
Only then will loneliness
become your past -
Just a dying memory.
